Gen. Sherman has received the following dispatch:

IN THE FIELD, FORT COBB, INDIAN TERRITORY, January Ist, 1869.

GENERAL—The destruction of the Comanche village by Col. Evans: command gave the final blow to the back bone of the Indian rebellion. At 130 clock on the hight of the 31st Décember a delegation of the chief men of the Cheysunes and Arapoboes, \$1 in number, arrived at this place on foot, their minmals not being able to bring them an. They said they ruled the village, begged for peace and for permission for their people to come in, asking nothing but only for a paper to protect them from the operations of our troops white an route. They report the tribes is mourning for their lesses, sheir people starying, their ponies dying, their dogs all esten up and no buffalo. We had forced them into the canons on the eastern edge of the Sakad Plains, where there were no small game or buffalo. They are in a bad fix, and desire to surrender unconditionally. I acceded to their terms and will punish them justly, and I can scarcely make an error in any punishment swarded, for they all have blood upon their hands.

Yesterday we received a few papers, the first for a month, and I see it is alleged by Indian agents that Black Kettle's band were on their reservation at the time they were attacked. This is insie. The reservation extends but thirty miles up that airsem from here. It is alleged the band was friendly. No one could make such an assertion who had any regard for truth. The young men of the band commenced the war and I can give their names. Some of Black Kettle's their from the scenes of outrages on the Soloman and Salene rivers, in Kansaa, were found in the explured camp, and madition I have their own illustrated bistory, found in their captured camp, showing the different fights or murders own into white captured is any one desiring information on the subject, it should be known also that I havind Black Kettle's and his d

The leading bears have been screitly at work for some time past in the Wesl, organizing for the compaign in railways, through the Legislatures in saveral Western States. The farts effort has been made in Illinois, and already a bill has passed the Seatte which reduces the rate of or passenger travel on rullways of that State to three ceats per mile. It is reported this will pass the flours and as signed by the Governor. A similar movement is on foot in lows and Viscounis, and the bears calculate this scheme will be successful and reduce the carnings of Western roads, and thereby depreciate the maket values on the Stock Exchange. It is reported on the street some roads will increase their capital atoks for quipmaint, and it is rumored the S. S. Direct on have already authorized fresh issues for this purpose. The bears calculate upon the denor silzation of the buils on any ucat lasure of stocks, and take comfort from this.
